The
PAINE
ART CENTER AND GARDENS

ThePaine.org | 2028

The Paine is planning important preservation work on the historic mansion during 2028, including a roof replacement and renovations to the main entrance.

Couples considering a 2028 event should anticipate that the mansion may not be accessible for rentals, guest use, or photography. Construction activity, scaffolding, equipment, and materials may also impact views of the mansion and surrounding areas.

While project details and timelines are still being finalized, we encourage couples to plan their event with the understanding that the mansion and areas immediately surrounding it may be unavailable throughout much of 2028.

We appreciate your understanding as we invest in preserving this historic landmark for future generations.
